

Fish in comfort

CABINED UP FOR COD

Go fishing in style with the Swim Shelter Cod Cabin

Introductory price: £84.99 for a limited time only (RRP: £99.99)

This tough reinforced PVC beach shelter is anchored to the beach using the heavy-duty sand flaps. Its legs are foldable, so in effect you are halving it to make transportation much easier.

The Cod Cabin offers ultimate protection from wind, rain or indeed the sun and the 'lookout' windows are neat for spotting bites if you decide to have the doors fully closed when making a warming brew.

Inside, there are sewn-in pockets so

you can keep items such as mobile phones or keys safe, rather than being uncomfortably stuffed into your pocket. The Velcro straps on the outside mean your rod is secure while baiting up or unhooking a fish. No need to risk having it blown off if resting on the shelter.

Finally, eight metal anchor points mean you can even secure the Cod Cabin on piers, jetties and promenades and the whole thing packs neatly into its very own holdall.
